- 1 Larissa did a great job explaining and teaching when she lectured. I loved learning from her because she always kept us engaged and made sure we were keeping up. She had a good pace when lecturing and it was easy to take notes and listen at the same time. She was also very helpful outside of class.
- 2 She is a wonderful, knowledgeable TA who is willing to answer all questions she is presented with. She shares her personal experiences and knowledge in an informative way that helps support the class material. THANK YOU LARISSA!!
- 3 Larissa did a great job of having availability within office hours and being very helpful in answering questions. At times it seemed as though there was a disconnect between grading.
- 4 Larissa was an excellent TA for the class. She is extremely knowledgeable in all areas of the course and would often supplement what was written on the slides during the lecture. Students would often turn to her rather than the professor for a further explanation of lecture concepts during class, and many other questions would be directed towards her as well. She was helpful and kind and will be great in any teaching position.
- 5 Rachel was very nervous at first, but as the semester went on she became more comfortable and became an excellent professor! I really appreciate the real-life scenarios she gives us, like practicing minimal pair therapy or an oral mech exam.
- 6 Your expertise really helped in explaining class material. Thanks for a great semester!

- 7 Larissa is a fantastic TA she is continually going above and beyond for her students. I have gone into Larissa's office hours and she has a way of explaining class material in a clear way, which continues in the classroom. While she lectures Larissa is always wanting us to understand material and encourages questions (which also can be said for Rachel as well!

- 22 The TA was an extremely useful resource whenever there was confusion about the presented lecture material. - 24 Super awesome TA. Very good at reinforcing lecture material and supplemental learning. I felt when she taught class I was more engaged and found the information to be clearly communicated and understood

- 25 TA did not always support student learning. She made herself available for the most part, but did not always provide feedback, and did not act like she wanted to help. She would pick and choose when she wanted to provide feedback to students on assignments. She said that she does not pregrade assignments, when students would go to her for help. This is not pregrading, this is students showing that they care and would like to do well, and are asking for help. The course instructor would help when the TA wouldn't. Also, always seemed to have an attitude in class and not very friendly.
