Q: Additional comments

- 1 Some of the activities we do in discussion do not really help me with the overall course material
- 2 can tell larissa works really hard and wants us to learn the best we can. she is good at describing things in different ways until we understand
- 3 Did an amazing job really making sure that we all understood the material. She answered every question and would often ask Dr. Moon questions for us.
- 4 I am so grateful that I had Larissa as my TA for phonetics. She genuinely cares about making sure students understand the material. If you are struggling she is more than willing to help and is approachable. She makes time for her students and has helped me a lot. The material is very hard for myself and she has done a great job breaking it down. She makes me feel really comfortable and I know she isn't judging me when I approach her for help. I would love to have her as an instructor again, she has been the best TA I have had yet at Iowa.
- 5 Larissa is an awesome TA. She is always willing to take the extra time to answer our questions and if she does not know the answer she will always check in with Dr. Moon and get back to us as soon as she can. It is obvious that she is passionate about what she does and really wants to make sure we are learning what we should and will need to know in the future.
